Pitney Bowes Spectrum™ OnDemand

SOLUTIONS AND SERVICES YOU CAN TRUST WITH ALL
THE BENEFITS OF SAAS APPLICATIONS

Summary

With a Software as a Service (SaaS) platform, Pitney Bowes Spectrum OnDemand delivers easy-to-use, easy-to-deploy and easy-to-manage solutions and services. We provide enterprise class SaaS solutions and services to provide a more agile response to your rapidly changing business requirements.

OVERVIEW

As a provider of online solutions to enterprise businesses for more than a decade, we are well positioned to work with you to solve your challenges. Pitney Bowes Spectrum OnDemand combines the best of both worlds—the high quality solutions and services you expect from Pitney Bowes with the ease-of-use, maintenance and support available from a SaaS platform.

Pitney Bowes Spectrum Addressing OnDemand

The Spectrum Addressing OnDemand solution enables world-class address standardisation, correction and validation, as well as phone appends. We employ industry-leading, sophisticated address matching algorithms to ensure you maximise your postal discounts. Leverage our Addressing solutions to capitalise on more reliable address data to know-your-customer and grow your relationships.

Pitney Bowes Spectrum Geocoding OnDemand

The Spectrum Geocoding OnDemand performs address geocoding and postal code centroid geocoding for locations in the U.S., Canada and Australia. Using our market-tested location intelligence solution, we provide you with actual location coordinates; including the latitude, longitude, altitude and Accessor's Parcel Number (APN), which makes it easier for you to analyze data geographically—thus generating more accurate, complete business decisions.

Pitney Bowes Spectrum Routing OnDemand

The Spectrum Routing OnDemand can take multiple discreet points and generate your optimal path of travel, leveraging our specifically accurate drive-time polygon services. Lower your costs and improve efficiency by consuming our multi-point Routing service.

Pitney Bowes Spectrum GeoTAX® OnDemand

The Spectrum GeoTAX® OnDemand service determines precise tax jurisdiction answers for your addresses. This market-dominating, location-based tax jurisdiction service makes it easier for you to apply the correct state, county, township, municipal and special tax district to your records—thus ensuring accurate tax determination, collection and payment.

Pitney Bowes Spectrum WindPool OnDemand

The Spectrum WindPool OnDemand service provides a new method to solve the problem of WindPool zone determination for insurance businesses. We have an industry-first answer to the decades-old problem, with verified accuracy over 90%. This service provides exact address inclusion within a WindPool zone, with supporting addressing and geocoding data. Within this service we deploy class-leading matching and addressing to maximise certainty for more accurate risk assessment and exposure management.

Pitney Bowes Spectrum Global Sentry OnDemand

Do you know who your customers are? You deal with customers, prospects and vendors every day, but how well do you really know these companies and individuals? More to the point, do you have any idea of their true intentions? By consolidating various agency and country lists, Global Sentry arms you with the data and equips you with the technology you need to feel secure in all of your dealings. The Pitney Bowes Spectrum Global Sentry OnDemand services is an international solution that addresses the specific requirements of governing bodies around the globe with laws that look to impose financial sanctions against designated countries, individuals and organisations on published watch-lists.

Advantages of Pitney Bowes Global OnDemand Services

As we bring our breadth of knowledge to focus on your specific needs, the benefits multiply. By using our Global OnDemand products, your typical integration efforts will only take hours, not days, due to the availability of multiple APIs including web services. And with no investment in servers, no ongoing maintenance and no software updates to install, you save both time and money, month after month.
